

FOR IMMEDIATE RELEASE

CaneKast's DISA® MATCH 24/28 is Now Fully Operational, Revolutionizing Sand Casting Efficiency

Clinton, SC – January 24, 2025 – [CaneKast](#), a leader in innovative casting solutions, is proud to announce that its newly acquired **DISA MATCH 24/28** machine is now fully operational at [Southern Aluminum Foundry and Machine \(SAF\)](#) in Clinton, SC. This cutting-edge technology is transforming sand casting processes by delivering unmatched speed, efficiency, and cost-effectiveness, reinforcing CaneKast's commitment to providing high-quality, timely, and affordable solutions to its customers.

Unrivaled Speed and Production Efficiency

The **DISA MATCH 24/28** operates **ten times faster** than conventional sand casting equipment, significantly reducing production times and accelerating time-to-market. By leveraging this state-of-the-art system, CaneKast empowers clients to optimize their product development cycles while maintaining a strong competitive edge across various industries.

Advanced Capabilities for Versatile Applications

With its superior production speed and precision, the **DISA MATCH 24/28** offers a significant advantage by:

- **Enhancing Cost Efficiency:** Delivering high-quality castings at competitive prices by reducing operational costs without sacrificing quality.
- **Seamless Pattern Changeovers:** Featuring automatic pattern changeover and core-setting capabilities for efficient transitions between low- and high-volume production runs.
- **Versatile Alloy Compatibility:** While optimized for 356 aluminum alloy, the system accommodates a variety of other alloys, expanding application possibilities across industries.

Seamless Integration and Expert Support

CaneKast's dedicated **in-house pattern shop** ensures a smooth transition to the **DISA MATCH 24/28**, enabling customers to seamlessly adapt their existing projects. With a **streamlined onboarding process**, CaneKast provides step-by-step guidance to ensure a hassle-free production experience.

Getting Started with CaneKast

Ready to leverage the power of the DISA MATCH 24/28? Here's how to begin:

1. **Contact Us:** Email sales@canekast.com for a custom quote tailored to your project requirements.
2. **Pattern Assessment:** Our experts will review and adapt your existing patterns for seamless compatibility.
3. **Revised Costing:** Receive an updated project estimate, reflecting significant time and cost savings.
4. **Production Launch:** Kickstart your project with unprecedented speed and precision.

About CaneKast

[CaneKast](#) is a network of non-ferrous foundries specializing in high-quality, low- to medium-volume aluminum castings; CaneKast serves a diverse range of industries with precision and reliability. **Partner with us for seamless collaboration, clear communication, and exceptional service. At CaneKast, we're committed to delivering high-quality products—on time, every time.**

DISA® is a registered trademark of DISA Holding A/S.

CaneKast Inc. is privately held and headquartered in Chaska, MN.
